

Information about Giuseppe Bazzocchi's backlit artworks

IMAGES

The images found on "ledimmagini.it" are all the property of Giuseppe Bazzocchi.

Even the original images, the artist's starting point for the digital re-working, are all the exclusive property of the artist Giuseppe Bazzocchi.

Digital re-workings almost all originate from scans of pictures and paintings created long ago by the artist (during 70's, 80's and 90's).

The artworks that do not originate from his works come from personal scanner elaborations.

THERE IS A MAXIMUM OF 100 SAMPLES PRODUCED PER "IMAGE".

PRINTING

Artworks are printed on Epson's backlight film and the printing method is inkjet. This method ensures optimal resolution and the film used ensures perfect colour rendering when the image is backlit.

LED PANELS

The LED panel is 60x60cm with an elegant finish, a white lacquered aluminium frame and a ultra-thin design of just 9mm.

Its 2-sided LED lighting system emits a brightness of 3,192 lumens, equivalent to that emitted by conventional fluorescent panels up to 80W (neon), enabling you to achieve significant energy savings. With instantaneous, noise and flicker free lighting, this LED Brush is perfect for spaces where you want to maximize light space by projecting light uniformly and without glare.

You can also install a wall mount kit.

The surface mounting kit for LED panels consists of four aluminium profiles, which allows you to hide the driver.

- Power: 40 W
- Power Supply Voltage: 220-240V AC
- Multi-voltage: 100-240V AC
- Intensity: 0.179 A
- Operating Frequency 50-60 Hz
- Light Flow: 3192 lm
- Bright Efficiency: 83 lm / W
- Light Beam: 120°
- Colour Index: 87
- Power factor: 0.95
- IP protection: IP40
- IK protection: IK05
- Glare Factor: UGR 19
- Class: II
- Duration: 30,000 Hours
- Operating temperature: -20°C ~ + 45°C
- LED type: Epistar-SMD 4014
- Dimension: 595x595x9mm
- Body Material: Aluminium / PC
- Diffuser: Translucent
- Includes: Driver GS 3078-C

The artworks will be printed, assembled and shipped to order only, the production and delivery times may vary, but they will not take less than 35 working days.

You can ask for aesthetic variants (background colours where possible). These will cost extra which will be agreed.
